Dec 3 - 4 - Annual Coordination Meeting

The meeting covers diverse themes related to EU's international cooperation on the green economy, but focuses on three main objectives:

1. Improve the understanding on the main achievements and challenges in promoting the green economy transition in partner countries;

2. Scale up action on sustainable finance by sharing best practices and lessons among green economy programmes and exploring synergies with other initiatives focused on finance;

3. Identify measures to improve projects' coordination, lessons sharing and collective influence.

The event is upon invitation only. Outcomes will be published on the website shortly after the meeting.
