

SECTOR INDICATOR GUIDANCE on Green Economy

European
Commission

Green Economy

Sector
Indicator
Guidance

*International
Cooperation and
Development*

The publication has been developed by INTPA “Results and Business Processes” jointly with INTPA thematic Units.

Aimed at all colleagues involved in the preparation of action documents and project documents it offers a handy tool to develop solid logical framework matrices. It identifies clear and measurable results statements that are in line with INTPA policy priorities, as well as with the UN Sustainable Development Goals (SDGs), along with a range of good indicators to monitor progress. It will be updated regularly to reflect evolving priorities.

The present guidance covers INTPA strategies in various sectors, and presents for each sector:

1. **EU policy priorities:** a short narrative explaining EU policy priorities and commitments as articulated in key policy and strategic documents.
2. **Results Chain:** a diagram showing the main results (impact, outcomes, outputs) that EU development interventions are expected to achieve in the sector, reflecting EU policy priorities and commitments.
3. **List of Sector Indicators:** examples of measurable indicators associated to each result statement are provided, that may be used in Logframe Matrices at project/ programme level.
